**How to Register for Google Colab, Upload a Notebook, and Run It**

This guide explains how to create a Google Colab account, upload an existing Jupyter notebook, and run Python code cells.
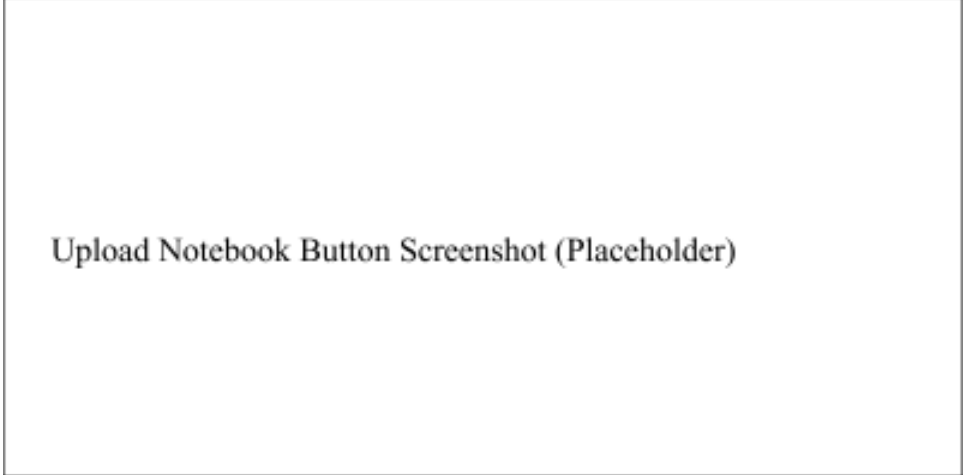

1. Registering for Google Colab

1. Go to https://colab.research.google.com.

2. Sign in using your Google account.

3. If you don't have an account, click 'Create Account' and follow the instructions.

2. Uploading a Notebook

1. On the Colab homepage, click 'File' > 'Upload Notebook'.

2. Select the .ipynb file from your computer.

3. The notebook will load and open automatically.

3. Running a Notebook

1. Each block of code is called a 'cell'.

2. Click the play button (■) on the left of a cell to execute it.

3. The output will appear directly beneath the cell.
